HOW TO PLAY

Get ready for fur-ious, flipping, family fun with the Rainbow Rabbits. In this colorful sequencing game, players race to build rainbows in the correct color order. First player to play every card in their hand, is the winner! It's a little bit competition, a smidge co-hop-eration, and a lot of chaos.

Sort the cards into 4 decks. Each player picks & shuffles their deck.

On GO, everyone flips through their deck as fast as they can.

Stack cards in rainbow order from Red to Violet in the play area.

First player to play every card in their hand wins! Shuffle & start again!

ABOUT

Rainbow Rabbits was created and designed by first-time game designer, Becky Young. After a successful Kickstarter in 2018 (133 backers, \$5.3K raised), Becky has learned the ins & outs of self-publishing. In late 2021, Rainbow Rabbits relaunched with an updated design, successfully selling out all 1K copies within 3 months.

“ Everyone had a great time with this game. No real time commitments, could stop whenever we wanted (but it is addictive) and even the older kids and adults had a blast. We ran tournaments with total wins counting for the day. ”
